Dear DuPage County Community Providers,

The DuPage County Health Department has been working during the past year to improve the way we deliver services to DuPage County residents.

One of the improvements coming this fall and winter will be to change our walk-in clinics to scheduled appointment clinics.

Starting Nov. 26, 2007, our TB skin testing clinics will begin scheduling client appointments for this testing.

We think this will help clients in many ways, including:

- Less waiting time in clinic.
- Knowing in advance what paperwork and information to bring to the clinic.
- Receiving reminder calls or letters for scheduled appointments.

We have also implemented a single telephone number (630-682-7400) for clients to use to schedule appointments. This telephone number may also be used to schedule other types of appointments or to obtain information about other services we provide.

Please share this information with residents, clients and other service providers who may be impacted by this change.

We look forward to delivering the best possible service to our clients

Sincerely,

Rose Karg, RN
Program Manager
TB Program

Maureen McHugh
Executive Director
DuPage County Health Department
