

# TEST PREP SERVICES

There are many different ways for your student to prepare for taking his/her ACT and SAT tests. At the high school here, we recommend junior students signing up for our Advanced Reading Lab course, either first or second semester. However, a student not wanting to use a slot in their actual school schedule can seek out other test preparation helpers. Many of these options are recommended to students who also do not have any open room in their schedules to fit in the Advanced Reading Lab class

## **Reading Lab A**

Advanced Reading Lab is a course designed for grades 11-12. Students taking the course will be able to improve in comprehension, critical reading, study skills, test-taking skills, reading in all subject areas, flexible reading rate, vocabulary development, and skill necessary for improved scores in the PSAT, SAT, and ACT college entrance examinations

## ***ExcelEdge Inc.***

### **ACT 36**

8 week course provides content, timing, pacing, and test strategies to best prepare to take the April ACT. Classes begin in January and run through March and are held at WNHS. Information will be mailed home to all juniors in the late fall.

## **COD Youth Education-Test Preparation Courses for Teens**

Experienced instructors guide students in reviewing specific skills tested on the ACT, SAT, and PSAT as well as offering practical tips to ensure the best performance.

For more information call (630)942-2208 or go to <http://www.cod.edu/youth/falltest.htm>

## **The Reading Tree, INC**

Privately owned and operated since 1976, The Reading Tree serves two locations, one in Naperville and one in Downers Grove. For over twenty-five years they have been assisting students that need help in preparing for college (ACT/SAT) and high school entrance exams. For more information go to:
